RESPONSIBLE POSITIONS

UI/UX Lead and Graphics Head - JVR

Handled a team of 20 people for making the website of JVR, assigned tasks, and assured delivery of product by taking scrum meetings.

Placement InCharge - VESIT

Handled placement drives being a SPOC for the smooth experience of students and companies.

PROJECTS

Ernst and Young - Current

Working as a full-time Business Analyst, where I handle client interactions. Gathering requirements by conducting walkthroughs, working on several ITGC controls to analyze risk. Recently worked with big clients like Standard Chartered Bank, Volkswagen, National Bank of Australia, etc.

Indian Navy

Worked as freelancer to gather the stakeholders requirements, designing the UI, and managing the expectations of the customer pertaining to the application. I shifted 2 major paper based systems to digitized projects - eB&D spares and Signals Management System.

Sierra Leone COVID19 App

Worked as a freelancer internationally for creating the first design of COVID19 app for Sierra country showing graphical representation of case statistics and features showing news updates, case report, self test and finding hotspot areas.

Job Vacancy Result Website

Worked as Lead UI/UX Intern for creating a job portal website interface. I worked on frontend technologies with my junior team. Also, worked as UI/UX Tutor for a month where I taught various UI/UX Fundamentals to my batch.

Sportizen App Design

Worked as a freelancer for creating elegant design of sports app (mobile and web) having social media aspect for all the sports enthusiasts, communicating on one platform.

COURSE CERTIFICATIONS

UI/UX Design course from Intern MyCaptain.
UX Design course from Udacity.
Power BI and Excel Visualization course from Udemy.

ACHIEVEMENTS

Winner of Smart India Hackathon 2020.
Secured 1st position in Hackit 2.0 hackathon at KJ Somaiya.
Won 3rd prize in inter-college UI/UX Designing competition.
Gold medalist in intra-college Chess competition.
